VI. HIGHWAY OPERATIONS UPDATES

A. Mr. Routzahn discussed the upcoming winter season.

1. Snow removal preparations started at the end of August by advertising in the Frederick News Post for snow contractors to assist Highways in snow removal.
2. We review our snow runs to make any adjustments that may be needed.
3. Since we have most of our domes filled with material (salt and anti-skid mixture) including liquid de-icer in the tanks, we will wait until after the first significant snow fall to decide on how much additional material we will need order to finish out the season.
4. The first of October, we start our equipment fix up to make sure all of the equipment is ready for the upcoming season. At this time we place the ram on the trucks that carry the plows, install the material spreaders and we check all hydraulic hoses and fittings. Once all the equipment is fitted on the truck, we will calibrate the material spreaders to make sure we will be placing the right amount of material on our roads.
5. We have the Inter-Agency Pre-Season Snow Meeting with other agencies scheduled for Tuesday, October 16, 2012.
6. We also have a Snow Plow Training course set up in October for our drivers.

VII. ROADS BOARD ISSUES

- A. Mr. Steve Haller offered his support with any budget issues that may arise during Board of County Commissioners meetings.

The next meeting will be held Monday, December 3, 2012, at 7:00 p.m. in the Third Floor Hearing Room of Winchester Hall, 12 East Church Street, Frederick, MD.

Respectfully submitted,
